● Students 30 responses

Loopi

43%

leave food mainly because: **portion too big**

57%

would rather see **food groups** than calories

4.0/5

interest in feeding the **Loopi pet**

MAIN REASON FOR LEAVING FOOD

Portion too big		43%
Not hungry		27%
Don't like the taste		17%
Ran out of time		10%
Didn't recognise the dish		3%

→ **Loopi** rewards the right portion, shows food groups instead of calories, and the pet gives students a reason to scan.

● Kitchen staff 8 responses

Kitchen dashboard

13%

know accurately which dishes come back

22%

of cooked food is **thrown away**, by their estimate

100%

want **waste shown by dish**

HOW QUANTITIES ARE DECIDED

Headcount × portion		63%
Previous day's leftovers		25%
Written records		13%
Past experience		0%

→ **Kitchen dashboard** shows waste by dish and suggests tomorrow's order from what was eaten, with no forms to fill in.

● Hospital staff 6 responses

Loopi Care

17%

trust their intake records

31min

a shift spent **writing intake records**

100%

want **automatic intake records**

WHEN A PATIENT WHO STOPS EATING IS NOTICED

Same day		33%
After 2–3 days		17%
After 4+ days		33%
Often missed		17%

→ **Loopi Care** records every tray automatically and alerts nurses the same day a patient eats poorly.

● Office workers 6 responses

Loopi Work

50%

feel an **afternoon energy dip** often or daily

33%

know the nutrients in their lunch

33%

would **pre-order** to skip the queue

SHARE MEAL DATA WITH EMPLOYER?

Yes		17%
Only anonymous totals		50%
No		33%

→ **Loopi Work** shows the nutrients in each lunch, offers pre-ordering, and keeps meal data private by default.
